Customer Reviews

I bought this book to improve my batting technique mainly. I was not expecting myself to be a start after reading this. However, this book alone may not be sufficient. If someone wants science & knowledge about cricket then this is probably the best. While I have not read any other books on same subject, I am sure I will still rate this high. And pleasure of watching Jack Kallis pictures with perfect technique.

This is a review for the 2009 Edition from Firefly...This book is a monster! Large-format hardback,

655 pp, a little under 5 pounds. Pictorial hardback boards with a sewn binding. Illustrations throughout, including some color plates.
