Customer Reviews

Every word I read while reading this book was the truth. I am truly inspired to have started the ways of Reiki in my life and the healing of self has begun. Thank you for such a wonderful book.

I think it was a great overview of what reiki really is!

I thought the book was promising the intro made me think it was going to be good but as I read it I thought.....ok people want the meat and potatoes quite literally so the book is saying you need to become a vegetarian and trust me I know some sickley looking vegetarians.....there are thin skinny pathetic looking....and me I eat meat I look way way way healthier and stronger then the sickley vegetarian.....so no chance I am becoming a vegetarian. Secondly it suggest you need a "rekei master" to complete some ceremony and I read a lot of spiritual stuff and not anyone of them suggest needing a personal consultation with them or anyone else...basically I found the book a real turn off
