Customer Reviews

While the anecdotes Rowe relates in this book are entertaining enough, the treatment of them is very superficial. And (with the exception of the background into Captain Kidd) you don't get a sense of much historic background. In fact, Rowe likes to repeat popular myth about this figures that he knows to be false in a very confusing way, so that it's almost unclear that he knows it's false. The selection of folk tales and history ranges from the history of the life-savers to pirates to sunken gold ships to ghosts. An entertaining enough read for a vacation or a Sunday afternoon. Also useful as a pointer to myths and histories worth following up in more depth.

Was in the condition expected--excellent--and worth the time and money. I had been a fan of his for years and was happy to find hsi books on . thanks to the seller for a great job!

This is a great book full of different stories and legends. Edward Rowe Snow is a great writer and knows how to keep your attention.

Bought as a gift - never got any feedback
