I love the range and assortment of complex patterns plus the creative and graceful, artistic style used in every single one of these illustrations. These Captivating illustrations are Swirled, Entwined, Layered and Entangled patterns that fill every page with imaginative combinations that will inspire you. This book is perfect for those times your mind is racing, when you just cannot get to the here and now because you cannot stop thinking about work, the past, the future, just grab your colors and this book and spend a few minutes coloring. You will immediately feel calm replacing the stress and soon you will be to the here and now. This is a must have book for your coloring library and would make a wonderful gift to Adults, College Students or school aged children. 1. 42 illustrations printed one per page (the back of each page is blank) on medium weight, bright white paper. 2. The Illustrations are all 7/8ths of an inch in from the binding, for easy coloring, then each image goes to the edges of the other three pages. 3. All markers leak through the paper, I place a piece of paper under the page I am coloring to prevent damage to the next illustration. 4. All illustrations are small to medium detailed and perfect for Ultra fine markers, or Colored pencils, and some are great for Fine markers or crayons. 5. I plan on using Bic Mark it Ultra Fine and Sharpie Ultra Fine markers

I just received this book and I already love it. I have not started coloring it yet, but it is filled with great designs that make me excited to get started. There are 42 images and each image is full page with a pretty big inside margin gap, so you don't have to struggle with reaching details that hidden in between the folds of the book. The images vary from medium to highly detailed and each image has enough space to use with markers or crayons. I would probably recommend using a piece of paper in between pages, to keep the ink from leaking through, though.

Great patterns. Whether you are feeling mellow or stressed, this book has some design for you. I love that I can use some of my wider pencils and pens because the drawings are not so small that the tips do not fit. Some days I want bright, bold colors and others more pastel. These designs easily adapt to all color pallets. A great way to reduce stress - almost like meditating and perhaps it is meditation for those who need color. I can recommend this book - especially if you, like me, like to create zentangles.

I love this coloring book. I purchased it for myself as I wanted to use it to relax in my down time. Although the pages were a little smaller than I expected, the quality is still great, the pages are easily removed, and the pages don't bleed with used with markers. I would definitely buy another book from this series. I do test these products out myself and give a very honest review. I am one that reads the reviews carefully when making purchases so I appreciate those who take the time to post reviews! If my review has been helpful to you, please give me a "Yes" vote on my review!

Really nice designs and i love that you can cut out the pages without totally messing up your creation! Got this as a gift for my BFF as a baby shower gift, along with a set of gel pens. I love the idea of Adult Coloring Books and my man and I have definitely noticed it is a stress reliever. Great gift!

Love it. Such a relaxing past time when you are stressed out. Wish I had done this much earlier. Who would think that at 55 years old I would be coloring again and loving it!!

Coloring is not just for kids anymore! Not that it ever really was, but coloring books for adults have become all the rage in the last few years. I'm so excited that I was able to find an adult coloring book for myself (I MIGHT share a few pages with my daughter if she's lucky!) This adult coloring

book has so many great designs that I can't wait to start coloring it and I'm not sure which design to color first!

I cut the pages out of this and used them as a teambuilding/stress reduction exercise for my department at work. People loved it! I've even had co-workers come get extra pages afterward so they can continue to color and de-stress.
