Synopsis

In Broadcast Rites and Sites: I Heard It on the Radio with the Boston Red Sox, Joe Castiglione gives his educated opinions on his favorite sightseeing, shopping, and restaurants from coast-to-coast. Yet, at the heart of the book is baseball as seen from his unique perspective and longevity in the boothâ •from witnessing seven no-hitters to having a catch with Bob Feller; from Roger Clemens' twenty strike out game to the fateful, unforgettable Game 6 of the 1986 World Series.

Joe's book is great as it delves into the background and life events of various ball players and not just limited to the Boston Red Sox. He shares what it was like and what he did behind the mike, away from the studio and interactions with the players, media, and management as well as people in the community. This is great insider history of people I really like to learn about. I collect baseball trading cards. Joe and Doug put the person with the stats on the card. They talk about other stadiums and places they travel to in the baseball world telling about what goes on there outside of the ballgame. These are things I would never be able to do and appreciate learning this part of history that we would never know about outside of this book. This is a great read and is like Joe is talking directly with you as a friend sharing a drink and just talking ball.

This book was awful. I lost this book halfway through and it didn't matter to me. Normally if I lost a

book I would go through the house so I could finish it.I’m a big Sox fan and Joe Castiglione is a great broadcaster, but he’s not a great author. One star for trying.
