Customer Reviews

I cannot believe the fourth book has already ended. And again! Michelle, you are queen of cliffhangers! What would go through your mind if the one you love was taken captive by someone you thought you could trust and thrust through a portal to the one of the underworlds? You would want to do everything in your power to get them back, correct? Well, this is precisely what Nicole is thinking and she downright almost walks through the portal before thinking things through. Kerberos is extremely difficult to navigate. There are obstacles that must be avoided. And instructions that must be followed. Nicole, Danielle and Chris receive some help from a deity, someone who knows his way around very well. Things go a little hay-wire; there is devastation ahead, but it will all work out. This book had me on all sorts of buzz. For one, though I enjoyed reading Greek mythologies and history, I was never one to read such books (such as witches and monsters). This series got me into it. Super fun to read! I cannot believe this series is nearly over! *CRIES* I feel as though I have only just started, but it really is almost over! There is only one possible solution to the matter. The moment Michelle releases the final book, I will simply have to go back and read the entire series again. **DISCLAIMER:** I received a copy of this book (via the author) in exchange for honest review.

The Portal to Kerberos is the fourth book in the Elementals series by Michelle Madow. The book picks up right where the action left the readers in the third book in the series, The Head of Medusa. The entire series is a fast paced young adult fantasy adventure heavily based on Greek Mythology. In this series we have been introduced to five teens who have elemental powers and have been sent on an adventure to close the portal to Kerberos and save the world. Each book has led to a high intensity action packed adventure along their journey with this latest being no exception to that. I don't want to get into too many details with this being the fourth book in the series but I will say that Michelle Madow has done it yet again, another awesome installment continuing the adventure that started in the first book. Each time I've picked one of these books up I've come to expect to be on the edge of my seat just waiting for the journey to take on another exciting twist. Again the readers are left with a huge cliffhanger in the story to hold them over for the fifth and final book in this series and I just can't wait to see how it will all turn out. I'd definitely recommend checking out the Elementals series. It would be best to start at the beginning with The Prophecy of

Shadows since this is one long continuing story and best explained following the books in order although there is a bit of back story to bring a reader back into the action in each. I received an advance copy of this book from the author in exchange for an honest review.

I was provided an ARC in exchange for honest review!! I've come to the conclusion that Michelle Madow is trying to give me a heart attack at a young age.. I cannot handle all the suspense!! Oh, who am I kidding? I LOVE IT! I really did not think any of the characters would make it out of Kerberos (the Hell dimension they travel to in order to save Blake - Nicole's boyfriend and the fire Elemental) in this novel... I was really upset they had to travel there to begin with, but it turned out to be a really interesting, yet nearly lethal, journey for them. They meet a new guide and he turns out to be a godsend (quite literally). He saves them... numerous times. These kids really get themselves into a whole lot of messes - or trouble seeks them out because they're chosen to save the world. Although, why wouldn't it? They need to face the adversity and get through it to make sure they're capable of completing the task set before them. Either way, they're a pretty fantastic bunch, even in the world to which they belong... I was glad this one didn't end on a super major cliffhanger like The Head of Medusa, but since there's a 5th book, of course it's a bit cliffy... Anyway, keep an eye out for book 5 - The Hands of Time - coming soon!!

I was gifted this book in return for an honest review. The Portal to Kerberos picks up immediately where The Head of Medusa ends. Ethan, son of Zeus and betrayer of the Elementals, drags Blake through the portal to the prison world of the Titans. It's up to Nicole, Danielle and Chris to save Blake and get Medusa's head back... But how? After meeting an unlikely guide in Kerberos, they go through a series of dangerous twists and turns. Danielle steps up out of nowhere, leaving you with your mouth hanging open at times. The three must work together like never before to make it through a literal Hell. Will they be able to save Blake in time and return with Medusa's head to stop the Titans from opening the portal and save the world? You'll have to read it to find out. Oh and the cliffhanger!!!! It's a good one, though :) You won't be disappointed. This book is yet another well done addition to the Elementals series! I'm excited for The Hands of Time! I have a feeling it's going to be the best one yet!! I recommend the entire Elementals series, starting with The Prophecy of Shadows.
