## Synopsis

Can a twenty-first century independent woman find her true destiny, in thirteenth century Scotland? At his father's bidding, Cade MacKenzie begs a favor from Laird Macrae. Lady MacKenzie desperately needs the renowned Macrae midwife. Laird Macrae has no intention of sending his clan's best, instead he passes off Elsie, a young woman with little experience, as the midwife they seek. But fate, in the form of a mysterious older woman and an extraordinary pocket watch, steps in. Elizabeth Quinn, a disillusioned obstetrician, is transported to the thirteenth century. She switched souls with Elsie as the old woman said she would but other things don't go quite as expected. Perhaps most unexpected was falling in love. All of the Pocket Watch Chronicles are complete stand alone stories and can be read in any order. Please note, The Midwife is a romance novel. It contains several mildly explicit intimate scenes. If you prefer either more or less steam you might be disappointed.

## Customer Reviews

Another sweet time travel romance by this author with the formula I love the most. Elizabeth is a doctor and is swept back in time to meet the very handsome heir to the Laird Cade in Scotland in

the 1200's. Elizabeth is a busy and disillusioned Obstetrician who doesn't get to know and spend time with her patients. She meets our old friend from the first book Gertrude who has the ability to time travel and offers her to time travel into the body of Elsie who is about to die. She takes of the offer and lands Clan Macrae as Elsie the niece of the clan's healer and is asked to lie to go the Clan Mackenzie to help with Cade's stepmother's pregnancy. She went along with this because she knew she could help. Elizabeth has the usual issues in her new time such as riding a horse. Cade is suspicious of "Elsie" but goes along with the plan. During their trip back to Mackenzie land she and Cade build a friendship and an attraction. Elsie is mouthy and funny maybe too much so for a girl in that time but he likes it. Both Cade and Elsie are likable characters and the romance believable all except Cade is an upper class heir of the Laird and Elsie is just a midwife. What works the best for me is the attraction that they share but Elsie holds strong to her beliefs that she won't go further than an innocent (or maybe no so innocent kiss) because she would never get in a relationship that she has to call her partner "Sir". Cade explained that yes he couldn't marry her but basically she could be his mistress because he has strong feelings for her. Well Elsie won that argument because she decided to try to stay away from Cade and he did not like it one bit.
