So much wow packed into one book. From the cover to the forward to the last page, this book is awesome. I even had to take notes because of the realizations I had. I'm going to re-read it and make sure it all sinks in. Tons of great insight. Favorite.

Literally in one day And 2 chapters I changed. I couldn't believe it. After realizing that the stories I create for myself dictate how I live I took responsibility and started waking up earlier. I love how this book includes a free interactive workbook that if you use will give you so much and more. Keara is also my coach and has helped me through things using much of what she goes through in this book but having it all written down allows me to revisit it as often as I want and also allows her to tell me as much as she wants with none of my interruption ;) I've already sent this as a gift to two people I love ! I love that it is a shorter length book with interaction and SO much honesty and comedy as well because Keara is refreshingly honest and open with herself. If you are looking to do anything like what the title of this book offers Keara really brings it ! Can't wait for more from her :)

The author is a great motivator, and her writing/coaching style definitely reached me personally. She really helps you get your priorities straight, in order to accomplish what you want in your own life. This is a must buy!

This was an amazing read. I am obsessed with personal development, have been to many Tony Robbin's live events, and listen to others like Les Brown, Greg Plitt, Eric Thomas, Jim Rohn, almost every day. I could add Keara Palmay right up there with my list of top motivators. She speaks from her heart and shows you a step by step process to uncover your own personal calling in life, and how to put together an action plan to move your life in that direction. I absolutely LOVED this read. It is a powerful book that I know I will be referencing for years to come.

This book sounds exactly like I'm having a conversation with the Coach Keara I know personally! I love the pieces from her own personal story and the quick activities seeded throughout, which not only makes this book a great read, but also something you can use to actually dominate your life. You go girl!

WOW...All I can say is wow. The author really hit it home with an incredible book about how to truly get the most out of life. This is a MUST READ for anyone looking to improve the quality of their life in any area.

I hate reading, but I could not put this bundle of knowledge and motivation down until I reached the end. Well written, great points, and so helpful! Thank you for contributing to making humanity great!! I will look out for more publications by you Ms. Palmay. Great work you dominated this book!
